

Xiaomi Corporation

2022 Green Bond
Allocation and Impact Report

Disclaimer

By attending the meeting where this presentation is made, or by reading the presentation materials, you agree to be bound by the following limitations:

The information in this presentation has been prepared by representatives of Xiaomi Corporation (the “Company”, and together with its subsidiaries, the “Group”) for use in presentations by the Group and does not constitute a recommendation regarding the securities of the Group. No part of this presentation should form the basis of, or be relied on in connection with, any contract or commitment or investment decision whatsoever.

No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information, or opinions contained herein. Neither the Company nor any of the Company’s subsidiaries, affiliates, advisors or representatives shall have any responsibility or liability whatsoever (for negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially.

This presentation is based on the economic, regulatory, market and other conditions in effect on the date hereof. It should be understood that subsequent developments may affect the information contained in this presentation, which neither the Company nor its subsidiaries, affiliates, advisors or representatives are under an obligation to update, revise or affirm.

The information communicated in this presentation may contain certain statements that are or may be forward looking. These statements typically contain words such as “will”, “may”, “expects”, “forecasts”, “plans” and “anticipates” and words of similar import. By their nature forward looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There may be additional material risks that are currently not considered to be material or of which the Company and its advisors or representatives are unaware. Against the background of these uncertainties, readers should not rely on these forward-looking statements. Neither the Company nor its subsidiaries, affiliates, advisors or representatives assume any responsibility to update forward-looking statements or to adapt them to future events or developments.

This presentation and the information contained herein does not constitute or form part of any offer for sale or subscription of or solicitation or invitation of any offer to buy or subscribe for any securities of the Company or any of its subsidiaries or affiliates in any jurisdiction. The securities of the Company have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the “Securities Act”), and may not be offered, sold or delivered within the United States or to U.S. persons absent from registration under or an applicable exemption from the registration requirements of the United States securities laws.

In addition, certain information related to other companies and market in general presented in this presentation has been obtained from publicly available information. The accuracy and appropriateness of that information has not been verified by the Company and cannot be guaranteed.

No invitation is made by this presentation or the information contained herein to enter into, or offer to enter into, any agreement to purchase, acquire, dispose of, subscribe for or underwrite any securities or structured products, and no offer is made of any shares in or debentures of a company for purchase or subscription except as permitted under relevant laws.

Overview

Headquartered in Beijing, Xiaomi is a consumer electronics and smart manufacturing company with smartphones and smart hardware connected by an IoT platform at its core. Embracing our vision of “Make friends with users and be the coolest company in the users’ hearts”, Xiaomi continuously pursues innovations, high-quality user experience and operational efficiency.

Our mission is to relentlessly build amazing products with honest prices to let everyone in the world enjoy a better life through innovative technology. In 2022, Xiaomi ranked No.3 globally in terms of smartphone shipments, according to Canalys. We have also established the world’s leading consumer AIoT (AI+IoT) platform, with 589.4 million smart devices connected to its platform as of December 31, 2022, excluding smartphones, laptops and tablets. Our products and services are offered in more than 100 countries and regions around the world.

In 2022, our total revenue reached RMB280.0 billion; adjusted net profit was RMB8.5 billion. In August 2022, Xiaomi made the Fortune Global 500 list for the fourth consecutive year, ranking 266th, rising 72 places compared to 2021.

We view ESG management as part of our corporate strategy, and has fully integrated it into our business operations and management. In 2022, we enhanced our ESG strategy across a wide range of areas, including carbon reduction, clean technology, green operation, circular economy, sustainable supply chain, data security and privacy protection, people development, social responsibility, etc. We have also developed our GHG emission reduction targets and action plans in our operations and value chain.

GHG Emission Reduction Targets

We are committed to reducing our Scope 1 and Scope 2 GHG emissions

By no later than **2030**

Reduce GHG emissions¹ from our main operating segments² by **at least 70%** from the base year³ level

By no later than **2040**

Reduce GHG emissions from our main operating segments by **at least 98%** from the base year level, with pre-conditions in place to achieve net zero emission⁴

Prioritize the use of **low-carbon technologies, long-term green power purchase agreement, and on-site renewable energy generation** to reduce GHG emissions throughout our target period

Encourage **key suppliers** to establish renewable energy usage and GHG emission reduction targets that are comparable to or more ambitious than ours to deliver continuous reduction in our **Scope 3 emissions**

¹ GHG emissions: Refers to the Company's GHG emissions (absolute value) calculated in accordance with standards such as GHG Protocol and ISO 14064 standard

² Main operating segments: Smartphone, IoT and Lifestyle products, Internet Services, and others (same scope as the operating segments stated in the 2022 Annual Report)

³ Base year: 2021

⁴ Net-zero emission: Refers to the ISO Net zero guidelines (IWA 42:2002)'s definition and guidelines on net zero emissions, of which the residual GHG emissions in the target year are in line with the science-based pathways to limit global warming by 1.5 °C

Our Inaugural Green Bond

Transaction Summary

Issuer	Xiaomi Best Time International Limited, a direct wholly-owned subsidiary of Xiaomi Corporation
Settlement Date	July 14, 2021
Size	US\$400 million (Net Proceeds: US\$392.8 million)
Coupon	4.100%
Maturity	30 Years (July 14, 2051)
Use of Proceeds	To finance or refinance, in whole or in part, one or more of the Xiaomi's new or existing Eligible Projects, pursuant to Xiaomi's Green Finance Framework
External Review	Sustainalytics Second Party Opinion

In July 2021, we successfully issued our inaugural green bond under our Green Finance Framework.

Our Green Finance Framework encompasses the following:

- Use of proceeds, including six categories of our Eligible Projects that are in line with corresponding Sustainable Development Goal (“SDG”)

- Project evaluation and selection
- Management of proceeds
- Reporting and assurance

We are committed to allocating the proceeds or an equivalent amount of proceeds exclusively for the financing and/or refinancing of Eligible Projects at Xiaomi, in whole or in part, including the acquisition, construction, development or re-development of such projects that provide clear environmental and sustainability benefits explicitly recognized by ICMA Green Bond Principles 2021 (“ICMA GDP”) and LMA, APLMA, and LSTA Green Loan Principles 2021 (“GLP”). Refinancing of Eligible Projects will have a look-back period of no longer than 24 months from the time of issuance. We will fully allocate the net proceeds on a best effort basis within 36 months of issuance.

Allocation of Net Proceeds

Total Net Proceeds

US\$392.80 million

Allocated Net Proceeds

US\$ 392.80 million

100% of Total Net Proceeds

Financing Portion

US\$328.68 million

83.68% of Allocated Net Proceeds

Note: Annual review performed by Sustainalytics

Impact Reporting by Eligibility Criteria

Eligible Project Category	Impact Indicators and Projected Benefits
Green Buildings	<ul style="list-style-type: none"> • Energy saved: 870 MWh • CO₂e avoided: 528 tons • Water saved: 7,788 tons
Clean Transportation	<ul style="list-style-type: none"> • CO₂e avoided: estimated to be 102-115 grams CO₂e per km per vehicle in use phase, compared with conventional gasoline vehicles of similar category
Energy Efficiency	<ul style="list-style-type: none"> • Energy saved: 5,851 MWh • CO₂e avoided: 3,534 tons
Pollution Prevention and Control	<ul style="list-style-type: none"> • Waste treated: 4,548 tons • Amount of animal feeds and fertilizers converted: 444 tons
Renewable Energy	<ul style="list-style-type: none"> • Energy saved: 420 MWh • CO₂e avoided: 167 tons

Note: Annual review performed by Sustainalytics

Featured Projects - Green Buildings

Project: Beijing Xiaomi Science and Technology Park

Location: Haidian, Beijing

Certification: Leadership in Energy and Environmental Design (LEED) Platinum®

- **Temperature Control System:** natural cooling tower to shorten cooling time
- **Lighting System:** outdoor floodlight system to save electricity
- **Office Area:** AI-powered smart control of energy-saving lamps, power sockets and air conditioners
- **Carpark:** lighting brightness adjustments
- **Water-saving System:** installation of a rainwater harvesting system, control of water pressure, optimization of water consumption in sanitary wares and improved cooling tower operation

Energy saved:
870 MWh

CO2e avoided:
528 tons

Water saved:
7,788 tons

Appendix

Eligible Projects

Eligible Project Category	Eligible Criteria and Example Projects	Sustainable Development Goal (SDG)
Eco-efficient and Circular Economy Adapted Products, Production Technologies and Processes	<p>Expenditures related to Research & Development (R&D) of products to achieve energy efficiency and to be certified by the China Energy Label (CEL), China Energy Conservation Product Certification (CECP), and European Union Energy Label</p> <ul style="list-style-type: none"> Reduction in energy and water consumption, as well as Green House Gas emission <p>R&D expenditures related to facilitating the use of eco-efficient materials in its products and packaging, including but not limited to:</p> <ul style="list-style-type: none"> Designing product packaging to reduce packaging material usage and weight and to reduce/avoid the adoption of plastic and film materials by utilizing biodegradable paper Replacing existing phone components with bio-based or other recycled materials 	
Energy Efficiency	<p>Design, installation, development and operation of infrastructure that reduce energy consumption or avoid Green House Gas emission in operations, including but not limited to:</p> <ul style="list-style-type: none"> Design and development of energy-efficient infrastructures that enable unmanned production and achieve 24-hour lights out production Improvement and maintenance of energy-saving electrical appliances controlled by a smart energy management system 	

Eligible Projects (Cont'd)

Eligible Project Category	Eligible Criteria and Example Projects	Sustainable Development Goal (SDG)
Green Buildings	<p>Expenditures related to (1) improvement or refinancing of existing and (2) design or construction of new, office space, commercial buildings, or surrounding communities certified in accordance with any one of the following selected certification systems:</p> <ul style="list-style-type: none"> • Chinese Green Building Evaluation Label (GBL) – Two stars or above • U.S. Leadership in Energy and Environmental Design (LEED) – Gold or above • Building Research Establishment Environmental Assessment Model (BREEAM) – Excellent or above • BCA Green Mark – Gold or above 	
Clean Transportation	<p>Expenditures related to investment in property, plant and equipment (PP&E), as well as R&D expenditures of alternative vehicles, sample projects including but not limited to:</p> <ul style="list-style-type: none"> • Electric vehicle • Electric scooters and electric self-balancing scooters 	
Pollution Prevention and Control	<p>Promoting waste classification and instant waste conversion in order to mitigate its environmental impact</p> <p>Recycling domestic waste and kitchen waste in offices to reduce solid waste disposal</p> <ul style="list-style-type: none"> • Installation and maintenance of waste processing equipment in Xiaomi Science and Technology Park canteen which converts kitchen waste into organic fertilizer in accordance with national standards 	
Renewable Energy	<p>Expenditures related to new or existing renewable energy projects (solar and wind projects) or the associated transmission solutions</p> <ul style="list-style-type: none"> • Installation and operation of two sets of solar boiler systems in Xiaomi Science and Technology Park
